

Name _____

Move E!

E 6-10
VISUAL THINKING

Follow the directions below in order to move the letter E within the grid below.

1. Slide the letter two boxes down and one box to the right. Draw the letter in its new location.
2. Flip the letter over the line at the bottom of the box it is inside of. Draw the letter as it should look in its new location.
3. Rotate the letter to the right 90° , then slide it one box to the right. Draw the letter as it should look in its new location.
4. Flip the letter over the line at the bottom of the box it is inside of. Then rotate the letter 270° to the left. Draw the letter as it should look in its new location.
5. Write your own directions for letter E so that it ends up in the same position and square.
