## Symmetry

PS 6-11

1. Complete the drawings using the dotted line as the line of symmetry.

2. How many lines of symmetry does figure $A$ have?
$\qquad$
3. Does figure $B$ have a second line of symmetry?
$\qquad$
4. A square has a horizontal and a vertical line of symmetry. What is a third line of symmetry?
$\qquad$
$\qquad$
5. Writing in Math Explain how symmetry and a flip transformation are alike.
